What is a solar battery charger?

This solar battery charger is built with an amorphous solar panel that charges in low or direct sunlight conditions. With its integrated blocking diode, this device is dependable in impeding reverse charging that could ruin the battery's performance. We're delighted to have an eco-friendly solar charging product like this.

What is Schumacher's 5W 12V solar battery charger and maintainer?

Schumacher's SA1589 5W 12V Solar Battery Charger and Maintainer is portable and compact, allowing you to charge your vehicle's battery off-grid and far from civilization. The SA1589 features three built-in monocrystalline solar panels that convert the sun's energy into up to 5W of power to trickle charge and maintain 12V batteries.

How do I connect a 5 watt solar panel to a battery?

If you are connecting the 5 watt solar panel to the battery via the cigarette lighter plug you must ensure that the cigarette lighter outlet will function when your car is turned off. If this is not the case you must connect the solar panel to the battery via the alligator clips. This will help maintain a charge on your battery. Helpful?
