

## Aegis solo battery cap for sale

What battery types can the Aegis use?

The Aegis can use both 26650 and 18650 cells. If you purchase the Aegis with the Golisi 26650 included, you're not even restricted to one battery type, since you can switch it out for an 18650 cell.

What is the Aegis Solo?

The Aegis Solo is a compact version of the popular Aegis system. It features a compact size, making it perfect for vaping on the go. The device has a lightweight and smooth chassis constructed with SLI silicone. It is powered by a single 18650 battery (not included).

What makes the Aegis Solo III more compact?

The Geekvape Tri-Proof Tech makes Aegis Solo III more compact. Water & dust resistance, as well as a higher level of shock resistance, together provide better protection in harsher environments. Flavor Till the End. At the heart of the Aegis Solo III lies the groundbreaking AS Chip 4.0. This smart chip supports the stable output buck-boost tech.
