What wattage battery should I use in my aegis?

Hi Rammstein, if you look at Baditude's post above, showing the batteries and wattages, and you are vaping up to 75 watts using any of the following will work fine for you in your Aegis. They are all highly recommended batteries by Mooch, who is the battery expert, so they are all very good batteries.

Is the aegis solo a good mod?

The Aegis Solo is significantly lighter in weight when compared to the original full sized Aegis mod. The Aegis Solo features the same rugged and durable design to be water, shock, and dust resistant for the ultimate outdoors vaping experience.

How do I charge my aegis solo?

The Aegis Solo is powered by (1) high amp 18650 battery (sold separately) and may be charged via the micro USB charging port which may be sealed tight with the silicone plug. The Geekvape Cerberus Sub-Ohm Tank features new Aero Mesh atomizer heads designed to produce incredible amounts of flavor and vapor.

What battery types can the Aegis use?

The Aegis can use both 26650 and 18650 cells. If you purchase the Aegis with the Golisi 26650 included, you're not even restricted to one battery type, since you can switch it out for an 18650 cell.

What makes the aegis solo a good vaping device?

The Aegis Solo features the same rugged and durable design to be water, shock, and dust resistant for the ultimate outdoors vaping experience. The Aegis Solo is powered by the AS-100 chipset which can instantly fire up to 100 watts and supports nickel 200, titanium and stainless steel 316 wire in temperature control mode.

How much wattage does aegis legend use?

Well the AEGIS Legend is 200W (the largest vape [wattage wise] was 75W). Well the AEGIS Legend is 200W (the largest vape [wattage wise] was 75W). The legend won't actually go to 200W. Even with 30A drain batteries (the highest drain actually made) it will only do 180W. It's the batteries that determine actual maximum wattage not the mod.
