

Arizer solo new battery 1st charging

How long does the arizer solo battery take to charge?

The battery will take 3-4 hours to fully charge, or longer if you use it while charging. If your battery is running low, with the Arizer Solo you don't have to wait for the battery to charge before you can use it. Just plug it in, set the temperature, and use the Solo while the battery continues charging.

Should I fully charge my arizer solo III v2.0?

Fully charge your Arizer Solo III v2.0 before first use. Arizer Solo III v2.0 Batteries and Chargers are manufactured to strict quality standards, specifically for use with the Solo III v2.0. Only use official Solo III v2.0 Batteries & Chargers. Do not use any third-party, counterfeit, or unknown brand batteries or chargers.

Is the battery of my Arizer Solo degrading?

The battery of your Arizer Solo is degrading, even though the device has some built-in considerations to extend its battery life. The batteries used in the Solo degrade quickly, and soon you'll only be able to get a few charges out of it before it starts dying.

How long does it take to charge a solo battery?

Install your new battery pack in your Solo and plug-in your charger. The battery cells had a fairly low charge, it took about an hour for the Solo charger to bring them up to the first battery charge indicator light. Total charge time was about 4 hours.

Does Arizer Solo have a replaceable battery?

Although the Arizer Solo has some built-in considerations to extend the life of the battery, Arizer does not offer a replacement service for the battery. Instead, they suggest getting a new Arizer Solo when the battery starts dying and only providing a couple of charges.

How do I conserve the battery life of the arizer solo?

To conserve battery life, use the Arizer Solo in a temperature controlled environment and use the lower temperature settings. When outdoors, stay sheltered from the elements and avoid using in extremely cold temperatures. Charge the battery as necessary.

Use While Charging - If your battery is running low with the Solo III, you don't have to wait for the battery to fully charge before you can use it. Just partially charge the battery (5-10 minutes) and then you can set the temperature and ...
