

Average PV energy storage price per 1GW in Chile

Will increasing solar energy demand boost solar energy capacity in Chile?

The increasing solar energy demand will likely boost the solar energy capacity across the country over the forecast period. The Chile solar energy market is fragmented. Some key players in this market (in no particular order) include Acciona, S.A., Jinko Solar Holding Co., Ltd., Trina Solar Limited, Enel Green Power S.p.A., and First Solar, Inc.

How are private investments influencing the solar market in Chile?

Furthermore, private investments are also steering the market in the country. For example, in 2023, Enel Green Power Chile, a subsidiary of Enel Chile, commenced construction of its new El Manzano solar power park in Tiltil, which will be the company's first large-scale photovoltaic solar power plant in the Metropolitan Region.

Will a 422 MW solar PV project be built in Chile?

In 2022, Colbún SA, the Chile-based investor, submitted an environmental assessment for a 422 MW solar PV plus storage project it plans to build in Chile. The plans include a five-hour, 240 MW battery system, which would be among the largest energy storage installations in the country.

How much solar power will Chile have in 2022?

Due to the government's favorable policy, the solar power sector in the country grew from almost non-existent in 2012 to over 6.2 GW by the end of 2022. In 2022, Colbún SA, the Chile-based investor, submitted an environmental assessment for a 422 MW solar PV plus storage project it plans to build in Chile.

Where will photovoltaic power plants be built in Chile?

May 2023: Akuo and Atlantica Sustainable Infrastructure announced the successful closure of financing and the commencement of construction for a portfolio of nine photovoltaic power plants in Chile. The portfolio, with a total capacity of 80 MWp, will be in the south of Santiago de Chile, in the Regions of Maule, Ñuble, Araucanía, and Biobío.

When will Chile start supplying electricity to the National System?

The Chilean energy regulator concluded an auction to supply electricity to the national system over a period of 15 years from 2027. Chile's Calama Solar 3 PV plant, said to be the first industrial-scale solar plant in South America, with a total installed capacity of 1.1 MWp. Image: CVE Chile From pv magazine Latam
