

Average Solar Inverter price per 20kWh in Bulgaria

How much does electricity cost in Bulgaria?

In the beginning of 2022, the average price of electricity in Bulgaria amounts to EUR 131.95 per megawatt, whereas in July last year it was to the tune of EUR 95 per megawatt. However, between July 2021 and January 2022, the price of electricity has fluctuated and at times, it exceeded EUR 300 per megawatt.

Why should you choose a solar inverter?

Additionally, it allows parallel operation of up to 10 devices, making it suitable for large-scale installations. High power and efficiency: The solar inverter provides a nominal active power of 20 kW and a maximum efficiency of 97.6%, which minimizes energy conversion losses.

What is a solar inverter sg02lp1-eu?

Low-voltage hybrid inverter Deye 12kWSUN-12K-SG02LP1-EU - an effective solution for solar systems with battery storage and reliable energy independence.

How does a solar inverter work?

High power and efficiency: The solar inverter provides a nominal active power of 20 kW and a maximum efficiency of 97.6%, which minimizes energy conversion losses. Wide PV input voltage range: With a maximum input voltage of 800 V and an MPPT range of 160-650 V, the inverter efficiently captures solar energy from photovoltaic modules.
