

# Average Solar Panel price per 1MW in Israel

How much does a solar panel cost?

A solar panel of about 100 square meters costs roughly NIS 70,000 to install and produces an average of 10 kilowatts of energy per hour. Assuming there will be about 1,700 to 1,800 hours of sunlight per year, at the current rate of about half a shekel per kilowatt, solar panels should bring an annual income of NIS 8,000 to 9,000.

How much does it cost to install a solar energy system?

In general, it should cost between sixty and a hundred thousand shekel to install a solar energy system on a residential home, depending on a number of variables, the main one being the size of the system. In order for the project to be cost-effective, it is recommended to set up solar panels in an area of at least 50 square meters.

Are solar panels profitable in Israel?

While the system can bring a double-digit return on investment for some, for the hundreds of thousands who own apartments in shared buildings, it is not yet profitable. Over the past few years, it has become more and more popular for homeowners in Israel to set up solar panels on their roofs or in their yards -- and for good reason.

What is Israel's Investment model for solar energy?

The investment model for solar energy has evolved over the last decade, as Israel has put more of a focus on increasing the rate of green electricity generated from renewable energy sources, most notably - sunlight.

How to set up solar panels in Israel?

When setting up solar panels, the first step is contacting a company that installs solar systems. Today in Israel, there are many companies of this type in the growing market, and it is worthwhile to conduct thorough market research and get recommendations from others who have already been through the process.

Should Israel use solar panels?

Another advantage to expanding the use of solar panels is that it reduces Israel's dependence on oil-produced energy, which in today's world affords great power to a fairly small number of countries, most of which are characterized by problematic regimes, to say the least.

The solar panel price per watt matters a lot since they are the foundation of any solar system. Like we have mentioned earlier, the average per watt price of solar panels of genuine solar brands like Vikram Solar, Waaree Solar, Adani Solar, ...
