

Average backup power battery price per 100MW in Pakistan

How much does a lithium battery cost in Pakistan?

With more households and businesses shifting to solar energy and backup power, the demand for lithium batteries in Pakistan is growing rapidly. The price of lithium batteries in Pakistan ranges from PKR 15,000 to PKR 300,000 in 2025, depending on the type, capacity, and brand. Several key factors influence the cost of lithium batteries in Pakistan:

Are lithium-ion batteries a reliable backup power source in Pakistan?

In Pakistan, where energy shortages and unreliable grid infrastructure are common challenges, lithium-ion batteries provide a reliable backup power source for homes, businesses, and industries.

How is the lithium-ion battery market developing in Pakistan?

Early Stage: The lithium-ion battery market in Pakistan is still developing. Most batteries are imported from China. **Demand Increase:** Backup power solutions and solar installations are driving growth. **Cost Reductions:** Prices for lithium-ion batteries have dropped significantly. In 2022, the price was USD 135 per kWh.

How much do AGS solar batteries cost in Pakistan?

AGS batteries are available in various models. These batteries require low maintenance and come with a 1-year replacement warranty. The price range of AGS solar batteries in Pakistan starts from Rs. 44,000 to Rs. 65,000. This range applies to AGS batteries with capacities ranging from 12v 185Ah to 12v 230Ah.

What type of battery should I buy?

Household Batteries (Alkaline): These are for flashlights, toys, radios, and other household devices. They last longer than other types of batteries and provide more energy. **Dry Batteries (Zinc-Carbon)** are for low-drain devices like clocks and remote controls. They're inexpensive and have a long shelf life.

1) Total battery energy storage project costs average $\$580/\text{MW}$ 68% of battery project costs range between $\$400/\text{MW}$ and $\$700/\text{MW}$. When exclusively considering two-hour sites the median of battery project costs are $\$650/\text{MW}$.

Investing in the best battery for solar in Pakistan is essential to ensure a reliable energy backup facility. There are different types of batteries available in Pakistan, with the most commonly used being acid and lithium batteries.
