

Average commercial energy storage price per 20MW in Bulgaria

How much does a battery cost in Bulgaria?

Currently, Bulgaria's electricity market offers an opportunity for EUR110 (\$122) per MWh profit on battery energy storage with two hours of discharge capacity using energy arbitrage. Rystad Energy's analysis estimates battery system costs at a flat EUR60 (\$67) per MWh.

How much battery energy storage capacity does Bulgaria have?

Bulgaria has installed between 40 MWh and 50 MWh of battery energy storage capacity to date. However, new national legislation as well as funds provided through the European Union's Recovery and Resilience Facility (RRF) could add another 1 GWh of storage capacity over the next two years.

How can different energy storage applications benefit Bulgaria?

In the European Union (EU), different energy storage applications benefit Bulgaria. Energy storage applications play a vital role in the successful integration of renewable energy sources into the electricity grid. They can bring grid stability and resiliency, which are crucial as a country strives to es

How much money does the Bulgarian Energy Ministry provide for energy storage?

The Bulgarian Energy Ministry opened a tender procedure for supply of energy storage on August 21, 2024. The procedure aims to provide funding for construction and implementation of a 3,000 MWh stand-alone battery storage facility. The total amount of the grant that can be provided under the procedure is EUR590 million (\$536 million).

Are electricity prices volatile in Bulgaria?

Electricity prices (where all businesses buy power) in Bulgaria are currently highly volatile. In 2022, Bulgaria saw wholesale electricity prices that were among the

Can battery-based energy storage improve peaking capacity in Bulgaria?

Battery-based energy storage can also offer greater flexibility and efficiency in managing the grid. Furthermore, and although hydropower storage already makes up a significant source of peaking capacity in Bulgaria, battery-based energy storage can address peaking needs during times of droughts, meet requirements for more distributed peaking po

The 2021 ATB represents cost and performance for battery storage across a range of durations (1-8 hours). It represents lithium-ion batteries only at this time. There are a variety of other commercial and emerging energy storage ...
