

Average domestic energy storage price per 50kWh in Vietnam

How much does electricity cost in Vietnam?

In May 2025, and Vietnam's average electricity price per kWh was set at VND 2,204.07 or about US \$0.084, excluding value-added tax (VAT), per Decision 599/QD-EVN. This was an increase from an average electricity price per kWh of VND 2,103.1159 or about US \$0.0836, excluding value-added tax (VAT), per Decision 2699/QD-BCT, from October 2024.

Is Vietnam a good market for energy storage solutions?

Vietnam represents a promising market for German and European small and medium-sized enterprises (SMEs) specialising in energy storage solutions, thanks to their technical expertise and established reputation in RE technologies.

Why do we need battery energy storage systems in Vietnam?

At the same time, the demand for battery energy storage systems (BESSs) is accelerating, driven by Vietnam's abundant renewable energy (RE) potential, particularly in solar and wind power. However, owing to the intermittent nature of these energy sources, storage solutions are required to ensure continuous electricity supply.

Why is the demand for battery energy storage systems accelerating in Vietnam?

Export-oriented businesses, especially in manufacturing, are under growing pressure to meet stringent requirements. At the same time, the demand for battery energy storage systems (BESSs) is accelerating, driven by Vietnam's abundant renewable energy (RE) potential, particularly in solar and wind power.

How many MW will Vietnam's storage batteries be able to run?

The plan expects storage batteries to reach a capacity of 300 MW by 2030, accounting for 0.2% of Vietnam's total electricity capacity. However, the policy framework for BESSs in Vietnam is still being refined and will continue to be adjusted to align with the country's economic and environmental development goals.

Who manages the electricity market in Vietnam?

The Ministry of Industry and Transport is the government body in charge of managing Vietnam's electricity market and supply. It does this through the wholly state-owned power company Electricity Vietnam commonly known as EVN. EVN generates some power, but also buys power from wholesalers, and sells electricity to consumers.
