How much money will Romania provide for battery energy storage systems?

The Ministry of Energy of Romania will provide just over EUR103 million in financial support for battery energy storage system (BESS) deployments in the country. Minister of Energy Virgil Popescu signed an order approving the state aid scheme for investments in battery energy storage systems on Monday, 28 November, announced via his Facebook page.

Is the Bess market heating up in Romania?

The BESS market in Romania is heating up, say local analysts and insiders. Irene Mihai, policy officer at the Romanian Photovoltaic Industry Association (RPIA) recently told pv magazine that a realistic target for the utility-scale BESS segment in Romania "would be around 2 GWh (around 1 GW of installed capacity)" for 2030.

How many electricity suppliers are there in Romania?

159 supply (of which approx. 90 are active on the markets) and 27 trader license holders; at current moment there are 5 suppliers of last resort on the electricity market in Romania which are designated by ANRE.

Which Romanian companies are adding Bess to their renewable assets?

Other Romania-based companies, such as Parapet and Waldevar Energy, have told pv magazine that adding BESS to their renewable assets is a top priority. The May edition of pv magazine features an in-depth look at Romania's solar and energy storage markets.

How much does a Bess battery cost?

Factoring in these costs from the beginning ensures there are no unexpected expenses when the battery reaches the end of its useful life. To better understand BESS costs, it's useful to look at the cost per kilowatt-hour (kWh) stored. As of recent data, the average cost of a BESS is approximately \$400-\$600 per kWh. Here's a simple breakdown:

How many people use electricity in Romania in 2021?

According to the data provided by the suppliers and centralized by ANRE, by the end of 2021 in Romania there were 358,979 non-household electricity consumers and 8,527,234 household electricity consumers.
