

Average solar with battery price per 1MW in Indonesia

How much does a Harga solar panel cost in Indonesia?

According to analysis, the cost of large-scale ground-mounted solar projects in Indonesia has decreased from approximately \$2.6/MW in 2013 to \$0.8/MW in 2024, placing it within the global solar cost range (\$0.5 to \$1.8/MW). According to the latest news, the harga solar panel 1000 watt in Indonesia are as follows:

How much does solar PV cost in Indonesia?

The average solar PV LCOE in Indonesia decreases from \$165 USD/MWh in the Base Discount Rate Scenario to \$159 and \$113 USD/MWh in the 10% and 6% Discount Rate Scenarios, respectively. Starting from the base assumed discount rate in Indonesia (10.4%), these scenarios represent reduced discount rates.

Where is the best place to get solar energy in Indonesia?

On average Indonesia receives between 1500 kWh and 2200 kWh per m² of annual solar energy on a horizontal surface (Global Horizontal Irradiance, GHI). Java, Sulawesi, Bali, and East and West Nusa Tenggara are the best locations for solar PV, while Kalimantan, Sumatra and Papua are less good.

How much energy does a solar panel produce in Bali?

Remember, solar panels need direct sunlight to produce energy! In Bali, Lombok, and many parts of Indonesia, this translates to an average of 4.2 kWh (kilowatt-hour) per kW of solar installed. When there is cloud cover or rain, your power output will drop. At night, it won't produce any energy at all.

How fast can you charge solar batteries in Indonesia?

As previously mentioned, in Indonesia you get an average of 4.2 kWh per kW of solar installed. With that in mind, you would want to be able to charge your batteries in 3 hours (or even faster in cloudier areas) so that you can still have some surplus for day use on sunny days, and can charge the batteries fast enough during cloudier days.

How to rent solar panels in Indonesia?

b) SUN Rental A rental financing scheme based on the performance of solar panels, based on hourly calculations without down payment (DP) or upfront installation costs. You can make monthly payments for 15-25 years. As an illustration, the average time the sun shines optimally in Indonesia is 4 hours.

Are you planning a 1 MW solar power plant in India? We provide turnkey solar EPC solutions across India, Here you'll find everything about 1 MW solar plant cost, profit potential, ROI, land requirements, specifications, and subsidies.
