

Average wind solar storage price per 100MW in Ireland

How much does wind energy cost in Ireland?

Energy experts Baringa calculated that wind energy is currently reducing the wholesale price of electricity each year by approximately 20 per cent, which is almost EUR400 million per year¹. When all costs and savings are accounted for, Baringa concluded that wind energy in Ireland has only cost EUR1 per person per year since 2000.

Could wind energy be cheaper and greener in Ireland?

To put this in context, the average annual price on Ireland's wholesale electricity market over the last 10 years ranged from EUR45-65/MWh, so we have now entered an era where wind energy could potentially be cheaper as well as greener⁴. But whether our industry achieves this is not solely up to us.

How much does wind energy cost?

Over the last 20 years the price of wind energy has been falling steadily. Wind farms in the Nordic countries are selling power at prices as low as EUR30/MWh² while in Spain, Germany, Turkey and Poland³ prices have fallen to EUR40/MWh.

How much will a wind energy auction save Irish electricity consumers?

International energy experts P&G⁶ calculated that for every EUR10/MWh reduction in wind energy in the auctions, the Irish electricity consumer will save ~EUR1.5 billion.

Will onshore wind be cost neutral in Ireland?

Baringa calculated previously that if onshore wind in Ireland can be delivered at EUR60/MWh, on average, between 2020 and 2030, then the 70 per cent renewable electricity target set out in the Climate Action Plan will actually be cost neutral for the consumer⁵.

Is the Irish wind industry worth the money?

However, to date, no analysis of outcomes or value for money has been undertaken and the Irish electricity consumer and industry, paying the third highest electricity prices in Europe continue to prop up a lucrative wind industry that saves at best 2.6-4% of our overall CO₂ emissions.

Solar panels in Ireland are a great investment and can pay for themselves in just 5-6 years. After that, it's free electricity all the way. Most of our customers generate more electricity than the average Irish household consumes each year.

The cost of solar panels in Ireland And how much can solar save you long term? For a typical household, solar panels cost roughly EUR7,000 to EUR10,000. This takes into account the government grant of up to EUR1,800. Prices vary depending on ...
