

BESS project financing options in Ghana 2030

When will Bess be operational?

By the end of 2025, the countries aim to achieve 5 GW of BESS through the consortium. These systems are scheduled to be operational by the end of 2027. The consortium's initial 5 GW target will serve as a road map to a longer-term ambition of 90 GW of energy storage which is necessary in order to meet the 2030 goal of 400 GW of renewable energy.

Which countries are joining the Bess consortium?

In addition, Barbados, Belize, Ghana, Nigeria, Malawi, Mauritania, Mozambique, and Togo are joining. The Global Leadership Council of the Global Energy Alliance for People and Planet made this announcement. By the end of 2025, the countries aim to achieve 5 GW of BESS through the consortium.

Who are the Bess consortium Resource Partners?

These countries are expected to receive support from the BESS Consortium resource partners that include the African Development Bank (AfDB), the World Bank, the Asian Development Bank, the Inter-American Development Bank, the Agence Française de Développement (AFD), Africa50 and Masdar.
