

Batteries deka solar 6v

What is a Deka solar battery?

Deka Solar Batteries from East Penn are engineered and tested to provide reliable, long-lasting back-up power for commercial Photovoltaic (PV) and renewable energy applications where frequent deep cycles are required and minimum maintenance is desirable.

What are Deka solar flooded monobloc batteries?

Deka Solar Flooded Monobloc batteries are designed to offer reliable, low-maintenance power for renewable energy applications where frequent deep cycles are required and minimum maintenance is desirable. The Deka Solar Flooded Monobloc series include 3 cell (6 volt) and 6 cell (12 volt) batteries.

Why should you choose Deka solar maintenance Saver®; flooded batteries?

Higher voltage systems naturally have greater power requirements. Deka Solar Maintenance Saver®; Flooded Batteries are available as a single cell or system. They are designed to offer reliable, low maintenance power for renewable energy applications where frequent deep cycles are required and minimum maintenance is desirable.

What is a Deka solar Dominator®; valve-regulated gel electrolyte battery?

The Deka Solar Dominator®; Valve-Regulated Gel electrolyte battery is designed to offer reliable, maintenance-free power. It is available as a single cell or system. The gelled electrolyte protects the battery plates making it ideal for renewable energy deep cycle applications.

How much power does a Deka battery provide?

Decrease downtime and raise profitability with DEKA INDUSTRIAL MOTIVE POWER BATTERIES. Available in 35-160 Ah positive models, precision-built DEKA BATTERIES provide up to 2000 Ah (at a 6-hour rate) of dependable power for all your material handling needs.

What kind of battery is used in Deka Premium series?

The DEKA Premium series uses DEKA 526MF Flooded 12V Batteries. All the benefits of the Premium series are presented with this battery.
