

# Battery for home solar system cost

How much does a solar battery cost?

Historically, solar batteries have had a reputation for being prohibitively expensive, with many recorded instances where adding storage doubled the cost of a home solar installation. You can expect to pay between \$7,000 and \$18,000 for a solar battery.

How much does a solar battery storage system cost?

The cost of a solar battery storage system for your home can range from as low as \$300 to more than \$20,000, depending on the size of your home, quality of the storage system, and energy consumption. Most systems typically cost around \$10,000 on average.

How much does a solar battery backup cost?

To ensure power for larger appliances or longer periods, you'll need to invest in multiple batteries. The cost of installing a solar battery backup system is anywhere from \$300 to \$15,000, with an average cost of \$6,000 for an entire home installation.

Are solar batteries worth it?

Solar batteries typically cost \$10,877 after the federal tax credit--which expires for batteries installed after December 31, 2025--for the 13.5 kilowatt-hours (kWh) of storage a typical home needs to keep essential devices running during outages (also the size of a Tesla Powerwall 3). Whether they're worth it depends entirely on your situation.

How much does a solar system cost?

Uninstalled, solar battery systems can cost anywhere from \$800 to \$10,000. The price of a solar system to power a home or appliance is generally between \$5,000 to \$7,000. You can expect to pay between \$400/kWh to \$750/kWh for the system.

How much does solar battery maintenance cost?

The cost to hire a local solar company to inspect and maintain your battery system is anywhere between \$150 and \$300 on average. Solar batteries last longer when you maintain them regularly. Maintenance includes an inspection, rotating the batteries, and cleaning the terminals.
