

# Battery storage container tender price in Ireland 2026

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MW of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

What will the 2026/27 PJM capacity auction results mean for battery storage?

The 2026/27 PJM capacity auction results mark a watershed moment for battery storage, highlighting substantial long-term revenue opportunities. As the market landscape evolves, battery developers and asset owners must act decisively.

Saft, has extended its energy storage system (ESS) offering with the launch of its latest innovation: the Intensium® Flex (I-Flex) battery storage container. It provides a compact building block rated at 3.4, 4.3 or 5.1 MWh for the creation ...
