Should you use solar car battery chargers?

The sun is a near-unlimited source of free electricity, which makes the idea of using solar car battery chargers so tempting. If you need to charge your car's battery but don't want to plug in a traditional car battery charger, one of these clever solar panels on your dashboard can supplement battery life, preventing a flat battery.

What is a portable solar car battery charger?

A portable solar car battery charger uses solar energy as its power source. It is a device that converts solar energy into electricity to charge car batteries. There are many advantages of solar power over conventional power sources like fuel because solar energy is clean. This means that it does not pollute the environment. What's more, solar energy is free once the installation costs have been met.

What are the two main types of solar car chargers?

There are usually two main types of solar car chargers on the market: the first type has a regulator which controls the charge that goes into the battery, preventing overcharging. The advantage of a regulated solar charger is that it prevents overcharging of the battery.

What is the difference between a solar car battery charger & regular Charger?

Besides the obvious difference of the power source, the main difference between a solar car battery charger and a regular charger are that standard chargers are more commonly used to fully charge a dead battery.

Which solar charger should I use outside my car?

For use outside the car, the Photonic Universe 10W would be our choice, with the Topsolar panel close behind. Solar chargers are incredibly useful but should the worst happen then you will need a jump starter pack. [Click here to discover the best car jump starter packs...](#)

What is a solar panel for charging car battery?

A solar panel for charging car battery works off a simple concept, though the details are, of course, more complex. Basically, a solar panel is crafted with charging car batteries in mind and has the proper connectors to use for this purpose.
