

Blackmax solar battery

What is Redearth's new blackmax battery energy storage system?

The first Australian-made off-grid battery energy storage system approved by the Clean Energy Council, now with new and improved features. An all-in-one standalone off-grid power system, BlackMax was RedEarth's original product, created with the idea of providing electricity where it isn't. The new updated BlackMax includes:

Can I open the blackmax battery system?

WARNING: Do not open system, operating on the inside of the BlackMax system is restricted to qualified personnel (electricians with CEC accreditation for Solar and Battery). RedEarth's BlackMax battery system is a all in one, ready-to-run energy storage system for off-grid applications.

What is Redearth blackmax 1 troppo battery?

The Australian-made RedEarth BlackMax 1 Troppo Battery 4.1 kWh is: OFF-GRID | ON-GRID | HYBRID Power your Shed - Weekender - Tiny Home - Caravan An all-in-one standalone off-grid and on-grid power system, BlackMax was RedEarth's original product, created with the idea of providing electricity where it isn't.

How many batteries does a blackmax inverter have?

It consists of a RedEarth 3.6kVA hybrid inverter and up to three(3) self-managed lithium batteries (12.4kWh total). It is fully assembled, factory tested and requires no programming. The BlackMax system is designed to be installed either inside or outside, ideally on a flat surface and in a shaded area against a wall.

What are the advantages of a blackmax Solar System?

The BlackMax's main advantages are its low cost and capabilities for simple installation. It can be as simple as placing the system in the desired location, laying solar panels and connecting them to a power board.

Can blackmax be installed outside?

Its IP43 rating means it can be installed outside in a shaded area. Like all of RedEarth's products, BlackMax is fully engineered, assembled, and tested to Australian standards at RedEarth's factory in Brisbane. It comes as a complete solution that can be easily installed by an SPS-certified installer.
