How many gw/99gwh will BNEF deliver in 2023?

(Chart above corrected to present latest data on October 4,2023.) BNEF clients can access the full report here. Three years into the decade of energy storage,deployments are on track to hit 42GW/99GWh,up 34% in gigawatt hours from our previous forecast.

Does BNEF still expect a strong demand for batteries?

Nonetheless,BNEF still expects strong demand for batteries,as the policy doesn't explicitly require mandates to stop. Since the policy announcement,some provinces across China have continued to announce mandates stipulating that new solar and wind projects must be paired with batteries.

What is the BNEF energy storage tier 1 list?

The BNEF Energy Storage Tier 1 list is based on BNEF's database of energy storage assets,which is mainly sourced from public information in the form of press releases and filings. Data on large projects is likely to be checked against several different sources.

How much buffer does BNEF have in 2022 & 2023?

Based on our analysis,we added a buffer of 485MW/1.9 GWhin 2022 and 1.9GW/5.1GWh in 2023. We added a 10% buffer each year from 2024 to 2030. Historically,our buffer was based on previous outlook forecast accuracy. (Chart above corrected to present latest data on October 4,2023.) BNEF clients can access the full report here.

Why should I subscribe to BNEF?

BNEF's independent analysis and trusted expertise enable our subscribers to connect the dots across sectors and markets, identifying opportunities and circumventing risks in the energy transition. BNEF's premium research, invite-only events and analyst access are available exclusively to subscribers.

Does bloombergnef have a tiering system for stationary energy storage products?

Some clarifications added but no changes to methodology. BloombergNEF maintains a tiering system for stationary energy storage products. Based on deployment over the preceding two years,this system is designed to create a transparent differentiation between the hundreds of manufacturers in the market.
