Will Brazil hold a large-scale energy storage auction in 2025?

The Brazilian authorities say they plan to hold a large-scale energy storage auction in 2025, potentially creating a market for large-scale storage facilities in the country. From pv magazine Brazil

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Will Brazil's first capacity reserve auction affect battery energy storage?

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, chairman of Brazil's energy storage trade body.

Will Brazil's energy auction improve power grid reliability?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?

Will changes to Brazil's first capacity reserve auction undermine Bess?

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, chairman of Brazil's energy storage trade body.

What is the market potential for energy storage in Brazil?

Daniel Lyrio: TBEA considers that Brazil's market potential is estimated at 5 GWh for the next three years, considering that we have the auction in 2025, with an average market [battery project] value of BRL 1.5 million/kWh, the number to be invested is around BRL 7.5 billion. Which applications should lead the adoption of energy storage in Brazil?
