

# Byd solid state battery

BYD plans to begin its first all-solid-state battery EV production in 2027, but this will be a limited rollout. During the first two years (2027-2029), the company aims to use these batteries primarily in higher-end, luxury vehicles.

Chinese car and battery giant is reported to have tested the first generation of its solid-state battery in BYD vehicles in China, bringing with it a potential range of up to 1,500 km NEDC range. The reports were first seen in ...
