

Can i use 6v batteries on my 12v solar system

An Amp Hour (AH) is the amount of time a battery can be run for a certain period of time. This means that a 6v battery usually lasts longer off of one charge as opposed to a 12v battery. To be running off of two 6v batteries that are being ...

While reading the current thread "HJ60 starter system issue" I started thinking about dual batteries in a 12 volt system. This is something I've wondered about before, but never could get any definitive answers for. My ...
