

Is there a free battery storage system in Ireland?

Just like there is no way to get free solar panels in Ireland at the moment, there unfortunately is no such thing as a completely free battery storage system. That being said, by offsetting your energy bills by a considerable amount, a battery storage system will completely pay for itself over time.

Can battery storage help reduce energy bills in Ireland?

As energy prices remain unpredictable and solar adoption continues to grow, Irish homeowners are turning to battery storage to maximise their energy independence. By storing excess solar power for use at night or during peak-rate hours, battery systems are helping thousands of homes cut electricity bills even further.

How much does a solar battery storage system cost in Ireland?

Adding a solar battery storage system to your PV solar panel system in Ireland can be a valuable investment. The cost of installing a solar battery ranges from EUR4,000 to EUR8,000, with an average payback period of 6-12 years. The usable capacity of the battery is 3.8-13.5 kWh, and it has a power charge/discharge rate of 2.0-5.5 kW.

Can a home battery system save money in Ireland?

Absolutely. Even without solar, a home battery system in Ireland can cut bills by over EUR600 per year through smart tariff use. Although you will see savings more quickly when used with solar panels, there are still plenty of savings to be had, not to mention other benefits also.

Is battery storage a smart investment?

Battery storage is a smart investment that increases your energy independence and maximises your solar savings. Through SEAI's Home Energy Grants, Irish homeowners can receive up to EUR1,800 towards the cost of installation when combined with a solar PV system.

How much does a battery storage system cost?

On average, the initial upfront cost of a battery storage system (including the installation) is around EUR5,000 to EUR15,000. Although this number can seem quite high, when you take into account the potential savings and the benefits, you'd be surprised at just how much money you will save especially when used in conjunction with solar panels.
