

Chess and power storage

Is chess plus a good choice for energy management?

With AI-powered management, Chess Plus is a top choice for optimizing energy use and maximizing ROI in diverse environments. Dr. Wang Xiaoye from BYD Energy Storage emphasized that only manufacturers with expertise in cell-level R&D can provide true value and efficiency.

What is chess power?

A first in NZ, Chess Power introduces a regular tournament just for girls. Held every two months culminating in the Queen's Cup Championship at the end of the year. A fun, social Chess Tournament just for kids aged 4 to 18. Normally held on the FIRST or SECOND SUNDAY of each month from 1pm - 5:30pm. Lots of great prizes!

Does chess plus have a fire protection host?

The Chinese version of the product also features a fire protection host inside of the container, while the US one has a separate smart HVAC component. Chess Plus features ultra-long-life battery cells supporting more than 10,000 cycles. To continue reading, please visit our ESS News website.
