

Commercial energy storage tender price in Australia 2026

Why is NSW opening a new energy storage tender?

NSW has opened the largest energy storage tender in NSW history, seeking new long-duration storage projects to boost electricity reliability and keep the lights on in NSW. These projects will help ensure a steady and reliable supply of energy around the clock.

How competitive are storage tender rounds?

Storage tender rounds are expected to remain highly competitive, with battery capacity under development exceeding tender volumes. The first CIS auction, the South Australia-Victoria Tender for battery storage capacity, saw significant investor interest.

Are Victorian and South Australian tenders fast tracked?

The Victorian and South Australian tender appears to have been fast tracked, with the federal government formerly flagging announcement dates in October. This tender is additional to an expanded tender currently running in New South Wales.

How are hybrid projects treated under a separate tender?

A separate tender will seek another 6 GW of new wind and solar generation capacity, but one of the key issues is how hybrid projects - those that combine battery storage with wind or solar, or both - are treated under the separate tenders.

Which energy projects have been successful in Australia?

The three successful projects are the 125MW/1GWh Stoney Creek BESS, owned by Enervest, Eku Energy's 100MW/800MWh Griffith BESS and Acen Australia's 800MW/11,990MWh ACEN Phoenix PHES.

The first tender resulted in a single 50MW eight hour battery to be built by German energy giant RWE, and the final applications for the second round of up to 600 MW are being assessed now, with a third tender to be also ...
