

Commercial energy storage tender price in Saudi Arabia 2030

Will tender prices rise in Saudi Arabia in 2022?

JLL has estimated that tender prices rose by an average of 4.5% across Saudi Arabia in 2021, and is anticipating a larger magnitude of increase in 2022. JLL's MENA Construction Economic & Cost Insights report outlines that a range of factors will result in higher building costs in 2022, particularly in the region's largest market of Saudi Arabia.

How will SPPC procure 30% of Saudi energy by 2030?

SPPC will procure 30% of the kingdom's target renewable energy installed capacity of 58,700MW through a public tendering process by 2030. Saudi sovereign wealth vehicle, the Public Investment Fund, is procuring the rest through the Price Discovery Scheme. Register for MEED's guest program now to access this article.

Will Saudi power procurement Company (SPPC) develop a battery energy storage system?

Saudi Power Procurement Company (SPPC) is several months away from seeking interest from developers for the contract to develop and operate the 2,000MW first phase of a battery energy storage system (BESS) catering to the grid.

4 · The successful implementation of BESS projects will significantly contribute to Saudi Arabia's goal of increasing the share of renewable energy in its power mix, targeting 50% by 2030. The strategic focus on energy storage ...
