

# Complete solar panel kits with inverter and deep cycle batteries

What is a solar battery backup system?

Solar battery backup guarantees a power source-- even during a grid service failure or natural disaster. When the grid goes down, a solar battery backup system automatically detects and transitions your solar system from grid power to backup power. Protect your home from outages with our solar battery backup kits. Shop What's in a kit? FAQ

How do solar battery kits work?

Solar battery kits give you everything you need to power your home and keep it running during a grid outage. When utility power is available, your solar panels generate electricity that can roll back your energy bill. If the power goes out, the system draws energy from the battery bank to keep your most important electrical loads running.

What is included in a solar panel kit?

Your kit includes a microinverter or string inverter to convert solar panel DC power to AC power and provide net metering capability. Our state-of-the-art batteries enable you to store surplus energy generated during the day, utilizing it during nighttime or peak demand periods to maximize your energy savings.

What does a complete solar generator kit include?

When you purchase a complete solar generator kit, it will come with at least one solar generator and an appropriate number of solar panels to match the power rating for that particular solar generator. The complete kits also come with all of the cables required to wire the solar generator to your solar panels.

Why do you need a solar battery kit?

The benefits of having a solar battery kit extends beyond power backup. Solar battery systems efficiently store excess energy generated by your solar panels, allowing you to tap into this resource during peak hours when utility rates are at their highest.

What do HBK solar kits come with?

Each of their HBK Solar Kits comes with everything you need, including a two-in-one solar power inverter and charge controller, as well as multiple solar panels and a high-capacity lithium-ion battery bank. On top of that, they come with all of the cables, connectors, and brackets you need to wire everything together.

Eco Worthy: Get the lowest prices, Factory Direct! ECO-WORTHY offers high-quality solar panels, LiFePO4 Lithium Battery, complete solar power system kits, Off-Grid, Wind Turbine, and DIY solar solutions for home RV or business. All ...
