

Components of lithium iron phosphate energy storage equipment

OverviewHistorySpecificationsComparison with other battery typesUsesRecent developmentsSee alsoThe lithium iron phosphate battery (LiFePO₄ battery) or LFP battery (lithium ferrophosphate) is a type of lithium-ion battery using lithium iron phosphate (LiFePO₄) as the cathode material, and a graphitic carbon electrode with a metallic backing as the anode. Because of their low cost, high safety, low toxicity, long cycle life and other factors, LFP batteries are finding a number of ...
