

Containerized BESS supplier quotation in New Zealand 2026

What is a Bess container?

BESS containers are more than just energy storage solutions, they are integral components for efficient, reliable, and sustainable energy management. BESS containers are designed for safety and scalability. Their ability to be stacked and combined allows for customization according to project size

When will Saft be launching a Bess system?

Saft will provide a turnkey solution based on 70 of its Intensium Shift+ lithium-ion battery containers combined with power conversion and control systems. It is planned to come online in the third quarter of 2026. "This will be Saft's third utility-scale BESS to support the New Zealand grid", said Hervé Amoss, Saft EVP Energy Storage System.

What is a Bess system?

BESS systems allow for increased penetration of intermittent renewable generation, which complements the global transition to zero carbon generation. Infratec's experience with BESS systems includes concept design and development, detailed design, installation, and integration of BESS systems in New Zealand and throughout the ASEAN regions.

What does Bess stand for?

Paris, 19 September 2024 - Saft, a subsidiary of TotalEnergies, has won a major contract to deliver a turnkey, utility-scale battery energy storage system (BESS) for Genesis Energy Limited, a listed New Zealand generation, wholesale, and retail energy company.
