

How many MW is a Bess project in Romania?

This project will feature a 127 MW power rating and an energy storage capacity of 254 MWh, making it one of the largest BESS projects in Romania to date. However, R.Power has not disclosed when the project will become operational.

How much funding is available for Bess projects?

The total funding available for the BESS projects is EUR 79.6 million (or US\$ 85.7 million). This call for tender has been relaunched after an initial launch in 2023, which was expected to select projects by the end of 2023. The original call had been for around 620 MWh or more storage, as the Ministry of Energy announced in November 2022.

How much does Bess cost?

The cost of BESS has fallen significantly over the past decade, with more precipitous drops in recent years: This is nearly a 70% reduction in three years, owing to falling battery pack prices (now as low as \$60-70/kWh in China), increased deployment, and improved efficiency.

Containerized BESS tender price in Romania 2025
