

Cost of 10kw solar system with battery storage uk

How much does a 10kW Solar System cost in the UK?

In 2025, the average 10kW solar system cost in the UK is between £10,000 - £11,000. This price includes the supply of the 10kW solar panel equipment, installing and connecting to the electricity supply, and VAT (zero-rated). If you'd like to store a portion of the electricity you generate, you'll have to take the solar battery price into account.

How much does a solar system cost in the UK?

When factoring in solar panel costs in the UK, the average 4kW solar system with battery price, for a 3-bedroom house, could reach £13,000 to £15,500. On the other hand, pairing a 5kW solar system with a battery can cost around £16,500 - £18,500. As you can see, the prices increase the larger your solar system size is.

How much does a 5kw solar battery storage system cost?

A 5kW solar battery storage system typically costs around £9,000 to £10,000. The variability in installation expenses for such a system is influenced by factors like the battery's size and whether it is direct current (DC) or alternating current (AC) coupled.

How much does solar battery storage cost?

If you'd like to store a portion of the electricity you generate, you'll have to take the solar battery price into account. For optimal storage, a 20 - 30kWh battery is recommended. However, the total cost of a 10kW solar system with battery storage can range from £16,000 to £23,500.

How much does a 4kwh solar battery cost?

The cost of an entry-level 4kWh solar battery (supply and install) is approximately £4,000. However, don't forget you'll also need to factor in the cost of an inverter (if needed). The total cost to install a solar battery storage system, including a 4kWh battery, inverter and PV system, comes in at around £12,000 on average.

Can a 10kW solar system save energy?

A 10kW solar system in the UK can generate electricity for large homes or smaller businesses. Large homes can benefit significantly in energy savings from having solar panels. This is because they can help offset the higher energy demands of larger homes compared to smaller ones.

The average cost of a 5kWh solar battery is £2,000-£3,000, if you include it within a solar panel system installation. A 5kWh battery is suitable for the majority of homes in the UK, as the average annual electricity consumption ...
