

Cost of solar system batteries

How much does a solar battery cost?

Historically, solar batteries have had a reputation for being prohibitively expensive, with many recorded instances where adding storage doubled the cost of a home solar installation. You can expect to pay between \$7,000 and \$18,000 for a solar battery.

How much does it cost to install a solar battery in 2025?

The average cost to install a solar battery in 2025 is between \$9,000 and \$19,000, with the average homeowner paying around \$13,000 on average.

How much does a solar battery backup cost?

Two cabinets can connect to a single inverter for up to 36 kWh total backup power. Whole-house solar battery backup costs \$20,000 to \$32,000 installed, not including solar panels. The average home uses 28 to 30 kWh per day, requiring batteries with at least that total capacity or more to power the entire home for one day.

Is solar battery storage worth the cost in 2025?

Whether solar battery storage is worth the cost in 2025 is totally up to you and your energy goals. If you experience frequent or long-lasting power outages, then having battery storage for backup power can be a game-changer in keeping you safe, productive, and comfortable (not to mention keeping your food from spoiling!).

How much does solar battery maintenance cost?

The cost to hire a local solar company to inspect and maintain your battery system is anywhere between \$150 and \$300 on average. Solar batteries last longer when you maintain them regularly. Maintenance includes an inspection, rotating the batteries, and cleaning the terminals.

Should you invest in a solar battery system?

Whether you're ready to take your love of reusable batteries to the next level or make use of that excess solar energy your solar panels generate, investing in a solar battery system is a great way to harness the power of the sun for free electricity. But before you can start saving, you'll need to budget for the cost of a solar battery system.
