

Dual battery kit with solar

From solar solutions to dual battery setups, Ironman 4x4 offers reliable options to ensure your vehicle stays powered wherever your journey takes you. These solutions streamline power distribution and provide efficient charging, giving ...

The solar charge will go into your aux battery first to replace the power used by your accessories. As long as the panel is big enough to keep up with the demand and charge up the battery, then our smart isolator will link them together, and ...
