

Dw energy storage power outage

How do I know if a power outage is affecting my area?

Call 1-866-366-4357 Reviewing the outage map is crucial for staying informed about power interruptions in your area. The map provides near real-time updates on affected regions, helping you plan accordingly and ensure safety.

What causes an unplanned power outage?

An unplanned outage happens unexpectedly due to events like storms or accidents, with no warning. Our crews work to restore power as safely and quickly as possible in both cases. What kind of work is considered a planned outage?

What should I do after a power outage?

Keep freezers and refrigerators closed as long as possible to preserve the food inside. After the outage, please wait a few minutes before turning on electronics. This will help eliminate problems that could occur if there's a surge in demand immediately after power is restored.
