

Energy storage field development plan template

How does the NSTA assess field development plans?

The NSTA considers the economics of field and incremental developments as part of the assessment of field development plans. Operators should complete a Standard Economics Template (SET) spreadsheet to assist the NSTA in this process.

How do energy conservation measures & on-site generation work?

Energy conservation measures and on-site generation are financed and implemented by an ESCO, which is repaid through energy savings. - Timeline: 1 month to 1 year (depends on project scale and site complexity) - Who creates the RFP: project leader, contract officer/lawyer, site manager(s), energy manager and technology expert.

Can a city or county use a solar RFP template?

For cities and counties required to use their local government's RFP template, the material in this template should be easily transferable to your city or county RFP template. The goal of this on-site solar RFP template is to provide local governments with an easily modifiable on-site solar RFP.
