

Energy storage project bidding opens

Are Con Edison & Orange & Rockland seeking a bid?

Con Edison and Orange & Rockland are seeking bids for scheduling and dispatch rights for distribution and transmission connected energy storage systems that will achieve commercial operation by end of 2030. Please review all requirements and provisions of the Request for Proposal and appendices thoroughly.

Do bid requirements read like a storage industry Hall of Fame?

Bid requirements now read like a storage industry Hall of Fame: Let's dissect China Huadian's 4GWh mega-tender that had 52 companies scrambling : The takeaway? Centralized projects are becoming price battlegrounds, while modular systems offer premium pricing--for now.

Can LPO finance energy storage projects?

LPO can finance short and long duration energy storage projects to increase flexibility, stability, resilience, and reliability on a renewables-heavy grid. Why Energy Storage?

What is the difference between manufacturing and deployment of energy storage systems?

Manufacturing: Projects that manufacture energy storage systems for a variety of residential, commercial, and utility scale clean energy storage end uses. Deployment: Projects that deploy residential, commercial, and utility scale energy storage systems for a variety of clean energy and clean transportation end uses.

Why is energy storage important?

Energy storage serves important grid functions, including time-shifting energy across hours, days, weeks, or months; regulating grid frequency; and ensuring flexibility to balance supply and demand.

Are centralized projects becoming price Battlegrounds?

Centralized projects are becoming price battlegrounds, while modular systems offer premium pricing--for now. While China dominates headlines, India's SECI just awarded: With battery costs halving since 2020, this market's heating up faster than a samosa fryer.
