

Expected ROI of battery storage container project in Argentina 2030

1) Total battery energy storage project costs average $\$580/\text{MW}$ 68% of battery project costs range between $\$400/\text{MW}$ and $\$700/\text{MW}$. When exclusively considering two-hour sites the median of battery project costs are $\$650/\text{MW}$.

The battery storage technologies do not calculate levelized cost of energy (LCOE) or levelized cost of storage (LCOS) and so do not use financial assumptions. Therefore, all parameters are the same for the research and development ...
