

Expected ROI of business energy storage project in Oman 2026

How much will Oman's power sector invest in the next six years?

Taken together with parallel plans for the implementation of a raft of Wind IPPs and combined cycle gas turbine (CCGT) power projects, total investment in Oman's power sector is set to balloon to well over \$5 billion over the next six years through to 2030.

Is Oman ready for a green hydrogen project?

Oman is moving forward with green hydrogen projects, with the first Final Investment Decision (FID) expected in 2026-27. Over the past two years, eight consortiums have been awarded land blocks in central and southern Oman to develop large-scale green hydrogen production.

Will Oman have a solar energy storage system?

Additionally, PDO is finalizing plans for a 100 MW solar PV-based IPP, named the 'North Solar Storage IPP,' set to include Oman's first battery energy storage system (BESS). This BESS, using lithium-ion battery technology, will store electrical energy and supply a maximum of 100 MW peak power to PDO's grid during daylight hours.

What are some solar projects in Oman?

The Ras Madrakah Solar Plant, with a 6 MW capacity, supports local industries in the Al Wusta region. The Dhofar Agricultural Solar Project provides solar-powered irrigation for farms in southern Oman. In Al Batinah, a small 2.5 MW solar installation supplies power to remote villages.

What is the most optimum generation mix for Oman up to 2040?

PWP about to finalise a strategic study which identified the most optimum generation mix for Oman up to 2040. For the next Solar PV IPP PWP exploring the options to include a small scale BESS; co-located with the PV Plant. The main purpose is for frequency control and to increase the plant availability during the ramp-up and ramp down moments.

Will Oman move from planning to execution?

Speaking at the 'Together We Progress' forum, Oman's Minister of Energy and Minerals, Eng Salim bin Nasser al Aufi, confirmed that the FID would mark the shift from planning to execution. He also stated that Oman would continue oil production and exports as long as costs remain below global market prices.

These mega-projects require significant investment but hold immense potential for Oman's future. They are expected to create jobs, boost economic activity, and position Oman as a major player in the region. However, staying informed ...
