

# Expected ROI of commercial energy storage project in Oman 2026

Will Oman have a solar energy storage system?

Additionally, PDO is finalizing plans for a 100 MW solar PV-based IPP, named the 'North Solar Storage IPP,' set to include Oman's first battery energy storage system (BESS). This BESS, using lithium-ion battery technology, will store electrical energy and supply a maximum of 100 MW peak power to PDO's grid during daylight hours.

How much green hydrogen will Oman produce by 2030?

These projects aim to produce at least 1 million tonnes of green hydrogen by 2030. Speaking at the 'Together We Progress' forum, Oman's Minister of Energy and Minerals, Eng Salim bin Nasser al Aufi, confirmed that the FID would mark the shift from planning to execution.

What are some solar projects in Oman?

The Ras Madrakah Solar Plant, with a 6 MW capacity, supports local industries in the Al Wusta region. The Dhofar Agricultural Solar Project provides solar-powered irrigation for farms in southern Oman. In Al Batinah, a small 2.5 MW solar installation supplies power to remote villages.

These mega-projects require significant investment but hold immense potential for Oman's future. They are expected to create jobs, boost economic activity, and position Oman as a major player in the region. However, staying informed ...
