

# Expected ROI of containerized BESS project in Poland 2025

What does ENEX 2025 tell us about energy storage in Poland?

The insights from Enex 2025 reinforce that BESS is no longer an emerging trend--it's a critical part of Poland's energy transition. With favorable market reforms and growing investment interest, the country is well-positioned to capitalize on energy storage innovations.

Is Poland moving towards battery energy storage systems (BESS)?

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased.

Is Poland a good place to be for BESS in 2025?

For utility scale BESS in 2025, Poland is the place to be. After the liberalisation of the ancillary services market in June 2024, prices initially fluctuated wildly, but have settled at an attractive level. And battery revenues, for front-of-the-meter installations, are very attractive.

Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

Why should you invest in BESS in 2024?

The exhibition showcased a range of innovations, from advanced photovoltaic systems to cutting-edge energy storage technologies, reflecting the dynamic growth of the renewable energy sector. The activation of Poland's Frequency Containment Reserve (FCR) market on June 14, 2024, has markedly enhanced the attractiveness of BESS investments.

Does Poland need 10 GW of BESS?

Radwanska, the country manager for Poland with the German aggregator, said that the head of the Polish transmission system operator has targeted 10 GW of utility-scale BESS "as a priority." Poland's electricity market is larger than that of Belgium and the Netherlands combined, she noted. Rapid saturation

The BRPL BESS project is the first commercial standalone BESS project at the distribution level in India to receive regulatory approval for a capacity tariff and will play a pivotal role in facilitating the uptake of low-cost ...
