

Expected ROI of gel battery storage project in Romania 2026

How many GW of energy storage will Romania have?

Romania is aiming to have at least 2.5 GW of energy storage installed by the end of next year and to exceed 5 GW only a year later. From ESS News According to Romanian Minister of Energy Sebastian Burduja, the country's energy storage fleet is expected to grow exponentially over the next couple of years.

Will Romania re-launch a battery energy storage tender?

On 8 February, the Ministry of Energy of Romania announced the re-launch of its tender for battery energy storage projects and investments in the manufacturing sector for the production of energy storage equipment and solar panels.

How much will Romania spend on a battery energy storage project?

To achieve this goal, the Romanian government will conduct both tenders through competitive bidding. A total of EUR79.6 million is allocated for the battery energy storage project. EUR199 million will be spent on related manufacturing capacity. Of this amount, EUR149.25 million will be used for new cell production, assembly and recycling facilities.

Why should Romania invest in energy storage batteries and photovoltaics?

If Romania can gain an advantage in the energy storage battery and photovoltaic industry and attract industrial capital from inside and outside the EU to invest in this field, it will help the EU to realise an autonomous and controllable sustainable energy supply chain.

Is Romania reopening a competition for battery storage?

Romania has reopened a competitive solicitation for battery storage for the grid integration of renewable energy, seeking "at least" 480 MWh.

Which Romanian companies are adding BESS to their renewable assets?

Other Romania-based companies, such as Parapet and Waldevar Energy, have told pv magazine that adding BESS to their renewable assets is a top priority. The May edition of pv magazine features an in-depth look at Romania's solar and energy storage markets.
