

Expected ROI of portable ESS system project in Ghana 2030

How does energy storage affect Roi?

The cost of electricity, including peak and off-peak rates, significantly impacts the ROI. Energy storage systems can store cheaper off-peak energy for use during expensive peak periods. Subsidies, tax credits, and rebates offered by governments can enhance the financial attractiveness of ESS installations.

What support does Ghana need for the SDGs?

Key areas in which Ghana needs support include linkages between research and practice, as well as building local government capacity for the implementation, monitoring and evaluation of the SDGs. Implementing the SDGs and promoting the "Leaving No One Behind" agenda requires strong research capacity and output.

What is the Ghana Statistical Service (GSS) doing?

The Ghana Statistical Service (GSS) is supporting MDAs to update their data collection templates to conform to the SDGs metadata requirements, and build their capacity to compute the indicator values. It is also developing a quality assurance framework with the support of partners and the participation of stakeholders.

How many research findings are adopted by industry in Ghana?

The number of research findings adopted by industry has been increasing over the period and significantly improved from 70 in 2016 to 115 in 2017. As part of Ghana's efforts to increase public and private spending on R&D, government in 2019 approved a minimum of 1 percent of GDP to be spent on R&D.

What is Ghana doing to meet its electricity needs?

Ghana is making a conscious effort to ensure that the remaining 19 percent of the population, who are in remote and often inaccessible areas, are catered for by 2030. For a larger proportion of this population, off-grid and mini-grid solutions have been adopted to meet their electricity needs.

How can Ghana improve local planning & monitoring capacity?

Ghana is thus making efforts to strengthen local-level planning, monitoring and implementation capacity by recruiting more local government staff, particularly statisticians. These efforts must be consolidated with effective, tailor-made training through the Regional Coordinating Councils (RCCs). Bank of Ghana 2018, Annual Progress Report.
