

Expected ROI of renewable energy storage project in Netherlands 2030

Global renewable capacity is expected to grow by 2.7 times by 2030, surpassing countries' current ambitions by nearly 25%, but it still falls short of tripling. Climate and energy security policies in nearly 140 countries have played a crucial role ...

"With Antares, we're demonstrating how smart, flexible storage can unlock the full potential of renewable energy while ensuring grid stability." "Battery storage projects such as Antares play an important role in stabilizing ...
