

Factory solar storage tender price in Guernsey 2030

What is the energy strategy for Guernsey?

The Electricity Strategy for Guernsey covers the period up to 2050. The Committee for the Environment & Infrastructure considered several different ways in which Guernsey could meet its future demand including solar, wind, tidal, additional interconnectors, energy storage and alternative fuels.

Where should an offshore wind array be located in Guernsey?

Feasibility studies to date have shown that the most optimal location for an offshore wind array in Guernsey's territorial waters is the west coast. The offshore wind feasibility report completed in 2016 is available in the downloads section of this page, along with a summary document.

Why should a regulatory framework be developed in Guernsey?

The regulatory framework must be suitable to the size and scale of Guernsey's industry, providing a mechanism to challenge decisions made by the industry, whilst also providing investors with confidence.
