Will Poland have a big battery market in 2025?

Poland's electricity market is larger than that of Belgium and the Netherlands combined, she noted. Rapid saturation While the prospects for big batteries in Poland are strong in 2025, the Clean Horizon analysis shows that the opportunity may not be long lived.

How many battery projects are being built in Poland?

The Polish Transmission System Operator Capacity Market auction has awarded a 17-year contract, indexed to inflation, for four battery projects to European Energy. The four projects have a combined capacity of 114 MW and are located in the north-western part of Poland. European Energy has 24 months to bring the projects to the ready-to-build stage.

Is Poland a good place to be for Bess in 2025?

For utility scale BESS in 2025, Poland is the place to be. After the liberalisation of the ancillary services market in June 2024, prices initially fluctuated wildly, but have settled at an attractive level. And battery revenues, for front-of-the-meter installations, are very attractive.
