

Government procurement price of lead acid battery storage in Guernsey

What if I want to supply the states of Guernsey with goods or services?

If you are interested in supplying the States of Guernsey with goods or services, please register on the online tender portal to receive automatic notifications when relevant tenders are published.

Are battery energy storage prices going back to reliable supply?

This Insight comes to you at the turning of the tide: after a period of increased pricing and supply chain disruptions, we are starting to see a return to reliable supply and declining prices in the battery energy storage markets. From the perspective of the industry, the relief could not come soon enough.

What happens if a battery procurement is delayed?

Delays in the procurement of batteries could lead to failures to comply with regulatory mandates, or, for utilities opting to install storage as NWA in place of other system upgrades, the failure to implement necessary system improvements.

What are the different types of battery procurement agreements?

There are primarily three types of agreements relevant to battery procurements: (1) purchase agreements, (2) master supply agreements (MSAs), and (3) capacity reservation agreements (CRAs).

What happens if a supplier fails to deliver a battery?

If the supplier fails to deliver the batteries by a guaranteed delivery date, the supplier will begin to incur delay liquidated damages. Similarly, there may be delay and/or performance liquidated damages if substantial completion has not been met by a guaranteed substantial completion date.

Lithium-ion vs. Lead-acid: Performance, Costs, and Durability When researching battery technologies, two heavy hitters often take centre stage: Lithium-ion and Lead-acid. To the untrained eye, these might just seem like names on a label, ...
