

Government procurement price of microgrid storage in Ghana

Why does Ghana need a more transparent electricity contracting system?

Ghana's electricity sector faces an urgent crisis of immense financial strain that calls for a new, more transparent approach for contracting power in the future. Public information on current contracts is highly limited, which has contributed to overcapacity, weakened sector planning, mounting debt, and rising concerns over public accountability.

How many PPAs are in force for electricity generation in Ghana?

This case study, written in collaboration with the Institute of Economic Affairs (IEA Ghana), identified 32 PPAs currently in force for the provision of electricity generation. We have summarized the implications of these contracts, and compiled all available public information into a downloadable Annex.

How many power purchase agreements are there in Ghana?

Ghana currently has 32 identifiable contracts, or Power Purchase Agreements (PPAs), in force for the provision of electricity generation. Both Volta River Authority (VRA) and the Electricity Company of Ghana (ECG) have PPAs in place with private Independent Power Projects (IPPs).

Why are PPA deals a problem in Ghana?

government to present PPA deals to Parliament. 11 Concealed PPA agreements also encourage public suspicions of corruption. Though PPAs have contributed to excess generation capacity relative to demand, Ghana still suffers from unreliable electricity and intermittent blackouts. This is due in part to a fuel supply gap to run thermal generators.

How many renewable generation licenses are there in Ghana?

Issuance of renewable generation licenses has halted since October 2018, and only 3 of the existing 124 licenses have been developed. Ghana does not have a comprehensive legal document regarding PPAs. However, the Constitution, along with several other regulations provides some legal framework for PPAs.
