

Heng an energy storage technology

What is Hentong energy storage?

Hentong Energy storage has two self-developed products: DC charger and AC charger. The products have the advantages of cloud monitoring, cloud operation, cloud management, intelligent operation, intelligent maintenance, dedicated system for large customers, channel diversion, and friendly UI interface.

What is keheng 18650 battery pack?

Keheng's 18650 battery packs is using 18650 cylindrical cells connected in series and parallel to get different sizes, voltages, capacity of the battery, size flexibility, high energy density, and high rates of discharge.

Who is keheng battery & pack manufacturer?

Keheng is a professional lithium battery cell & pack manufacturer which uses different battery technologies (NMC, LTO, LFP, Sodium Ion). Our engineers team can provide the most cost-effective battery solution with 15 years' project experience in different battery material technology.

How keheng can customize your battery solution?

Keheng can customize your battery solution based on 3000+ project experience, just send us your requirement to get our best solution! NMC batteries are known for their high energy density and high thermal stability; however, they typically have a shorter cycle life and lower safety margins.

Who is keheng battery?

Keheng is a leading custom lithium battery manufacturer, which specializes in offering customers a variety of customized battery solutions (OEM), and we can provide battery pack components in all chemistry. Our premier engineers team can help take any project from concept to realization. Since 2008, Keheng Battery team has focused on

How long does it take keheng to produce a battery?

Keheng can provide you with product design drawings within 1 week and samples within 3 weeks. Keheng owns battery cell factory and battery pack factory, dedicated to offer one-stop solutions for your lithium battery needs. If you are battery pack factory, project installer, we can integrate the full set of production line and components for you.
