

# How long does it take for energy storage to be registered with the national development and reform commission

How will new energy storage technologies develop by 2030?

By 2030, new energy storage technologies will develop in a market-oriented way. On March 21, the National Development and Reform Commission (NDRC) and the National Energy Administration of China issued the New Energy Storage Development Plan During China's "14th Five-Year Plan" Period.

What are the Development Goals for new energy storage in China?

The plan specified development goals for new energy storage in China, by 2025, new energy storage technologies will step into a large-scale development period and meet the conditions for large-scale commercial applications.

Does the energy storage strategic plan address new policy actions?

This SRM does not address new policy actions, nor does it specify budgets and resources for future activities. This Energy Storage SRM responds to the Energy Storage Strategic Plan periodic update requirement of the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. § 17232 (b) (5)).

Will the DOE repost the SRM?

The DOE, at its discretion, anticipates reposting the SRM in draft form at a later time for public comment to inform the final version of the SRM. Learn more about DOE's energy storage activities supporting DOE's energy storage mission and vision through the Energy Storage Grand Challenge.

Why is DOE investing in energy storage?

The underlying motivation for DOE's strategic investment in energy storage is to ensure that the American people will have access to energy storage innovations that enable resilient, flexible, affordable, and secure energy systems and supply, for everyone, everywhere.

How long does a solar project take to receive the NTP?

For seven solar projects (of 16 projects for which we have NTP data), BLM issued the NTP within one month. However, within this limited sample, some projects experienced a substantial lag in receiving the NTP: 20 months for Gemini, 38 months for Desert Quartzite, 40 months for Lucerne Valley, and 78 months for Desert Harvest.
